### PROFESSIONAL EXPERIENCE

#### DeKalb County School District | 06/2023 - PRESENT

Paraprofessional | Stone Mountain, GA

- Manages and maintains 1,863+ student records each month, keeping information accurate, organized, and aligned with district reporting and documentation requirements.
- Works closely with educators, parents, and administrators to understand student needs, share performance information, and support informed academic planning.
- Monitors academic and behavioral trends across 249+ learners, identifying areas that may require additional support, intervention, or follow-up.
- Helps improve administrative workflows by organizing documentation, standardizing processes, and finding practical ways to make reporting and information-sharing more efficient.
- Creates technology-based classroom resources that make information easier to access and support student engagement and learning.
- Prepares progress reports and organizes individual student performance information to help educators understand progress and make informed instructional decisions.
- Supports onboarding and provides guidance on district data management procedures, helping maintain consistency and accuracy across day-to-day processes.
- Collaborates with educators to document observations, track progress, and identify opportunities for continuous improvement in student support.

#### Panda Express | 10/2017 - 11/2024

Operations Shift Manager | Stone Mountain, GA

- Led day-to-day restaurant operations, coordinating employees, customer service, inventory, staffing, and workflow execution in a high-volume environment.
- Increased operational revenue by 13% by identifying sales opportunities, evaluating customer purchasing patterns, and aligning operational decisions with business demand.
- Managed inventory processes covering 4,927+ items monthly, using demand trends to improve stock levels, reduce waste, and maintain operational efficiency.
- Coached and developed 15 team members by combining performance observations, operational results, and individual development needs to improve productivity and service quality.
- Identified workflow bottlenecks during peak periods and implemented process improvements that strengthened service delivery and team efficiency.
- Developed labor allocation strategies using business demand and staffing trends to balance productivity, customer service, and labor costs.
- Used customer feedback and operational trends to identify recurring service issues and implement improvements that strengthened customer satisfaction and retention.
- Built workforce schedules using historical demand patterns and business forecasts to align staffing with operational needs.

## **Planned Companies | 10/2021 - 08/2023**

Assistant Property Manager | Atlanta, GA

- Coordinated property operations across 37 communities, supporting residents, vendors, team members, and leadership while managing day-to-day service and administrative workflows.
- Reduced document retrieval time by 19% by implementing a digital records management system supporting 37,000+ operational documents.
- Conducted operational audits and translated compliance findings into actionable recommendations that improved consistency, documentation, and property-level processes.
- Increased tenant retention by 9% by evaluating resident feedback, identifying service trends, and partnering with teams to implement targeted process improvements.
- Coordinated cross-functional service workflows and monitored request activity to improve response times, prioritize high-impact issues, and strengthen operational performance.
- Trained team members on reporting procedures, documentation standards, and operational best practices to improve consistency and data quality.
- Standardized documentation processes, reducing administrative errors and creating more consistent reporting practices across properties.
- Tracked maintenance performance and used operational information to prioritize service requests and identify opportunities for process improvement.
- Developed tenant feedback reporting processes that helped leadership identify recurring issues, understand resident needs, and improve service delivery.

## **Maggiano's Little Italy | 11/2019 - 02/2022**

Operations Supervisor | Atlanta, GA

- Led front-of-house operations in a high-volume hospitality environment, coordinating employees, service workflows, customer experience, staffing, and daily execution.
- Increased customer retention by 15% by identifying service trends, incorporating customer feedback, and implementing targeted operational improvements.
- Reduced service delays by 21% by evaluating peak-period workflows, identifying bottlenecks, and redesigning processes to improve team coordination and service delivery.
- Conducted quarterly performance reviews for 26 employees, using performance information to identify development needs and create individualized coaching plans.
- Built staffing schedules around historical demand and business forecasts to align team capacity with operational needs.
- Coached team members using performance observations and operational results to improve productivity, service consistency, and employee development.
- Partnered with operational teams to identify quality and service trends, address recurring issues, and improve the customer experience.
- Gathered employee feedback to identify opportunities to strengthen communication, engagement, and team collaboration.
- Managed inventory reporting and supported cost-reduction initiatives that improved resource utilization and overall operational efficiency.
